## PROFESSIONAL SUMMARY

QA Engineer with 3 years of experience in automation and manual testing for web and mobile applications. Skilled in Playwright, Selenium, Robot Framework, API testing, PostgreSQL, and performance testing with hands-on experience in Agile environments.

## CORE COMPETENCIES

Automation: Selenium WebDriver, Playwright, TestNG, Robot Framework
Programming: Python, Java, SQL, JavaScript
API & Performance: REST API Testing, Postman, JMeter, LoadRunner
Database: PostgreSQL, SQL Validation
Tools: Git, Jenkins, Linux, AWS, JIRA
Testing: Functional, Regression, Integration, Cross-Browser, Mobile Testing,API Testing
Methodologies: Agile Scrum, SDLC, STLC
Automation Frameworks:Page Object Model (POM), Data-Driven Framework

## EDUCATION

Bachelor of Engineering in Computer Science

New Horizon College of Engineering, Bengaluru | 2023

## PROFESSIONAL EXPERIENCE

### Quality Assurance Engineer | MyGate (Sep 2023 – Jan 2026)

*Enterprise ERP platform for urban community management*

1. Designed and executed test cases for ERP workflows across web and mobile applications
2. Validated billing systems, approval workflows, and role-based access functionalities
3. Performed API testing using Postman and validated backend data using SQL queries
4. Developed and automated 80+ regression test cases using Selenium, reducing manual testing efforts.
5. Conducted performance testing using JMeter to analyze application stability under load
6. Collaborated with developers and product teams in Agile sprint cycles
7. Worked on keyword-driven automation testing using Robot Framework

### Software Development Engineer in Test | Sechpoint (Feb 2026 – Present)

1. Developed Playwright automation scripts for sanity and regression testing
2. Created database automation scripts for PostgreSQL validation and stress testing
3. Analyzed system latency, throughput, and concurrent database connections
4. Evaluated application stability and validated performance under heavy load conditions
5. Participated in sanity, regression, and integration testing activities
6. Developed and maintained automation test scripts using Robot Framework and Selenium
7. Worked closely with cross-functional teams for defect tracking and issue validation
8. Integrated automation suites with Jenkins for scheduled sanity and regression execution

## CERTIFICATIONS :-

1. AWS Certified Cloud Practitioner
2. Python Certification – Cisco
3. QA Automation Testing – Udemy
4. SQL Certification – Udemy
